## MORGAN VISE DISPLAY STAND

MADE OF HEAVY GAUGE STEEL — WELDED  
CONSTRUCTION — RICH MAROON FINISH  
WEIGHT 80 LBS.

This attractive and sturdy display stand furnished to authorized distributors of Morgan Vises. Increased sales can be realized through this display of various types and sizes. A real help in selling and a great aid to the purchaser, enabling him to make his selection right from the stand.

The floor space necessary for this stand is 16"x 48". The normal capacity is 10 to 12 vises of assorted sizes. Stand shipped in carton ready for use—no assembling necessary.

We will be very glad to send full particulars upon request.

## MACHINISTS' BENCH VISE

### Solid Jaw and Stationary Base

Dependable strength and extreme rigidity is obtained in the Morgan line of machinists' vises, by the use of a special semi-steel casting and the accurate milling of the sliding bar to snugly fit the broached opening in the base. The jaws are milled parallel and have interchangeable tool-steel faces which may be renewed when battered or worn thus adding years to the life of the vise. The screw is a solid steel forging engaging in a malleable iron nut Acme threaded. This vise is unsurpassed for strength, rigidity and durability. All parts interchangeable.

Vise No.	Code	Width of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
30	Abate	3	4	23	\$ 20.00
35	Abbey	3½	5	31	22.50
40	Abroad	4	6	43	25.50
45	Acast	4½	7	56	31.00
50	Accuse	5	8	74	40.00
60	Acor	6	10	138	78.00
80	Ardent	8	12	250	150.00

## MACHINISTS' BENCH VISE

### Solid Jaw and Swivel Base

All the strength and rigidity of our stationary base vises is maintained in the swivel base series by careful workmanship and close inspection; all engaging parts are milled to insure smooth and perfect working. This vise may be swung and clamped in any desired position; a specially designed nut for locking the base at any angle makes it impossible to turn the vise when in use and prevents any play which would destroy the rigidity. Our new and improved base gives a low construction which is very desirable. All parts are interchangeable.

Swivel base vises 5" and larger have double swivel locking attachment.

Vise No.	Code	Width of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
130	Badge	3	4	32	\$ 26.00
135	Baden	3½	5	44	30.00
140	Bald	4	6	57	34.00
145	Ballot	4½	7	70	40.00
150	Balm	5	8	95	60.00
160	Bass	6	10	150	104.00
180	Ball	8	12	275	196.00

## MACHINISTS' BENCH VISE

Swivel Jaw and Swivel Base

The workmanship and finish of this vise is unsurpassed. Being carefully reinforced at the proper points makes it strong enough to withstand the roughest machine shop usage and as an asset to the tool room where fine work is done it is indispensable. The interchangeability of parts allows smooth faces to be inserted in the jaws for fine work when necessary. A specially designed nut for locking the base prevents any play which would destroy the rigidity.

Swivel base vises 5" and larger have double swivel locking attachment.

Vise No.	Code	Width of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
335	Deacon	3½	5	43	\$ 40.00
345	Dealt	4½	6¼	75	56.00
360	Decay	6	9½	164	120.00

## COMBINATION PIPE VISE

Swivel Base

The Morgan Combination Pipe Vise is constructed to embody the best features of our standard machinists' vise and the convenience of a pipe vise. It is very strongly built. The pipe jaws are milled from a high grade tool steel and the vise jaws have hardened tool-steel faces. This is a very convenient vise and very serviceable. All parts are interchangeable.

Vise No.	Code	Width of Jaw, Inches	Pipe Cap.	Jaw Opens, Inches	Wt., Lbs.	List Price
87	Finch	3½	2½	5½	48	\$ 35.00
88	Flag	4½	3½	6½	72	48.00

## SHEET METAL WORKERS' VISE

[Formerly Coach Maker's Vise]

With Solid Jaw and Swivel Base

This vise is particularly serviceable in the wood-workers room as it is equipped with our regular swivel base which allows it to be swung into any desired position and locked securely, making it impossible to turn the vise when in use. The jaws are milled to parallel and the inserted unhardened tool-steel faces are ground to perfect smoothness to insure positive bearing.

Vise No.	Code	Width of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
138	Gas	4½	10	64	\$ 45.00

## BRASS CAPS FOR VISE JAWS

These caps are used to protect work from the regular corrugated jaw faces. They are made of brass and are put in place with finger prongs, holding them securely in place and yet are easily removed.

### ORDER BY WIDTH OF JAW

Width, In. ....	3	3½	4	4½	5	5½	6
List Per Pair.....	\$3.00	3.60	4.20	5.00	6.20	8.00	10.00

## Guarantee

ALL Morgan Vises are fully guaranteed to be satisfactory in every respect, and we will replace without charge any part which breaks or shows undue wear due to faulty material or workmanship.

# MORGAN UTILITY

## Streamliners

Beautifully designed to meet the new trend on modern lines. Increased strength where it is really needed.

New features—attractive color—the biggest and strongest utility vise on the market today.

- Strong close grained gray iron casting.
- Extra large steel sliding bar.
- Removable steel jaw faces—hardened.
- Pipe jaws which may be removed when not needed.
- Acme threaded cold rolled screw, with one piece handle.
- A good substantial heavy base with positive side lock.

## SOLID NUT CONTINUOUS SCREW VISE

Designed and built to withstand the most severe service. The extra heavy Cold Rolled Screw and SOLID NUT will last a lifetime.

### Stop in Front Jaw

Vise No.	Width of Jaw, Inches	Depth of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
10A	7	4	9	23	\$17.00
15A	8	4	9	26	18.00
20A	10	4	12	30	20.00

### Plain Front Jaw

No.	Width of Jaw, Inches	Depth of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
20	10	4	12	30	\$19.00

No. 10A and No. 15A Vise can be furnished with 12-inch opening at List price of \$1.00 additional.

### Hardwood Handle—

Note the simplicity of construction; every part carefully and accurately machined and interchangeable cold rolled side bars threaded and held in place by hexagon nuts—not riveted.

## SOLID NUT CONTINUOUS SCREW VISE

### Adjustable Steel Handle—Stop in Front Jaw

Vise No.	Width of Jaw, Inches	Depth of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
210A	7	4	9	24	\$18.00
215A	8	4	9	27	19.00
220A	10	4	12	31	21.00

### Plain Front Jaw

No.	Width of Jaw, Inches	Depth of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
220	10	4	12	31	20.00

No. 210A and No. 215A Vise can be furnished with 12-inch opening at list price of \$1.00 additional.

## QUICK ACTION VISE

### (Toles Pattern)

The working action of this vise is the most simple and effective of any of the screw adjusting type. The screw, having intercepted threads, operates in a half nut, a slight turn of the handle disengaging the screw and permitting jaw to slide back and forth at will. A turn in opposite direction engages screw with nut, holding the work firmly in place.

### Plain Front Jaw

Vise No.	Code	Width of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
100	Hark	7	9	30	\$18.00
200	Have	10	12	36	21.00

### Stop in Front Jaw

Vise No.	Code	Width of Jaw, Inches	Jaw Opens, Inches	Wt., Lbs.	List Price
100A	Hold	7	9	30	19.00
200A	Hook	10	12	36	22.00

The half nut is a high quality bronze casting, and all parts of the vise are carefully machined and finished.

These vises are furnished either with or without a stop in the front jaw.

There is absolutely nothing about this vise to get out of order.

# Why *Morgan Vises?*

## Dependable **STRENGTH**

is obtained in Morgan vises by the use of a Semi-Steel casting, tested and proved by actual breaking strain. Strength is present where strength is needed.

**RIGIDITY** an all important factor in vises, is a feature of the Morgan line. Careful and accurate machining of the sliding bar, working to close limits insures this extra rigidity, which is so essential.

**THE JAWS** of the Morgan vise are milled parallel and fitted with interchangeable tool steel faces. These steel faces are driven on the vise and then held firmly with special tapered screws to insure absolute tightness. These jaws may be removed when battered or worn, thus adding years to the life of the vise. Our standard jaw faces are diamond cerated to insure a firm gripping power.

**SMOOTH JAWS** will be furnished at no extra charge on request.

**THE SCREW** is a solid steel forging, cut with Acme threads, and gauged closely to insure gripping power. The handle of the screw is one piece, the balls being forged on each end.

**THE NUT** in which the screw engages is made of malleable iron and fits snugly into the slot of the body of the vise. This part is easily replaceable if necessary.
